ABOUT US

Always Meant To Books is here to help you read those books you've always *meant* to get around to.

We have a team of expert readers on tap to sort through the classics- from Beowulf to Shuggie Bain- to help you find the classics that are worth it, readable, interesting, and best suited to you and your reading taste.

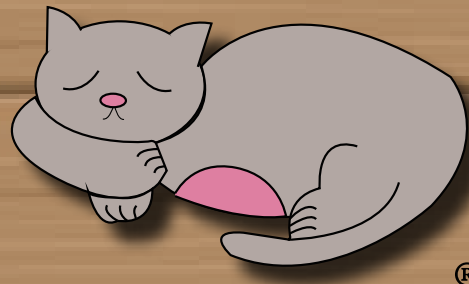

We started as a group of English majors who wanted to help people see all the beautiful literature that is locked away under the epithet "classic," and bring them to the average person.
